Summary

I am a Full Stack Developer specializing in JavaScript, React.js, Node.js, and Express. I excel in developing responsive and intuitive web applications using cutting-edge MERN stack technologies. I have a thorough understanding of HTML, CSS, and jQuery, and I am proficient in REST API, MySQL, Firebase, and Shopify. I possess advanced skills in troubleshooting, network security, and customer support. I am certified by CompTIA A+ and Google IT Support and have successfully completed a Full-Stack Web Development (MERN) certificate program.
